

TEATRO DELLE RADICI

31st INTERNATIONAL LABORATORY

TRAINING AND RESEARCH GATHERING

august
17/31

THE OPPOSITES

conducted by
Cristina Castrillo
Bruna Gusberti

THEME

Our lab is now in its 31st edition. During this long journey, it has tried to constantly deepen different topics related to the need for a form of approach to a creative technique, but also and above all has given great space to the search for those personal aspects that determine one's own expressive identity.

There are many topics and themes that have involved the many participants who have accompanied us on this long journey. This year we intend to focus on the opposites, on those aspects of life in constant contrast, on the evidence of the two poles that live within us.

CONTENTS

In addition to the usual work of physical preparation and development of the introspective world that are the basis of Teatro delle Radici creative technique, the emphasis will be placed on the elaboration of exercises and proposals that have as their center all those aspects that, in our body, in our thoughts, in our feelings, we know and intuit are in constant struggle.

STRUCTURE

The participants will be present throughout the whole established period.

Arrival: on **Saturday 17** (by 5pm.)

Departure: on **Sunday 31** (before midday)

As usual, the workshop foresees, besides the pedagogical approach directed by Cristina Castrillo, the presence of special guests as well as working presentations, performances and interventions on the topic.

CONDITIONS

- › The cost of the full laboratory is CH fr. 1.000.
- › The price includes accommodation, but not food (the accommodation has kitchen facilities)
